Expenditure Notes:

Highlights & Deviations: Once again, many subcontractors are expressing low clientele for this month. This may be due to clients not being in state. A portion of the target audience are young, college women who are not present during the summer. We look are expecting higher results once local colleges resume. Also, we increased the pregnancy tests target number in the original proposal. We should not have increased this target number during the summer since they are lower performing months. This would have decreased the deviation.

Corrective Actions for Deviations: Encourage clinics to advertise this service to both male and female clients. Males may be able to refer other males who have impregnated a woman. Clinics will advise abstinence upon the first visits for both male and female clients. Clinics will emphasize this service during the counseling sessions. This service will be advertised to both male and female clientele.

Ongoing Obstacles:

Major Activities in Next Period: To increase the number of women taking pregnancy tests. To increase the number of participants for the abstinence sessions. To increase the number of participants in the prenatal classes.

Highlights & Deviations: Although this indicator shows a deviation, this indicator has begun to increase and is at its highest since June 2013. The public relations campaign initiative was completed for Women's Help Center and has contributed to the increase. Some of the clients, who had a 2nd pregnancy but had not participated in Alternatives to Abortion, were not being counted. Once approval was received from DCFS, the additional clients will be counted.

Corrective Actions for Deviations: Public Relations activities are being implemented for 2 additional subcontractors, which have a large clientele, and will increase the number of clients, who become aware of the services. The revised reimbursement schedule, which focuses on Number of Pregnancy Tests, Number Participating in Abstinence Sessions, and Number Participating in Prenatal Classes, for subcontractors will be introduced at the Conference on March 28-29, and will be implemented beginning April 1.

Highlights & Deviations: DEVIATIONS: 1. The Number Participating in Abstinence Sessions, and 2. The Number of Pregnancy Tests. HIGHLIGHTS: Almost 96% of the clients, who utilize the LAFL subcontractors' Alternatives to Abortion services, decide to commit to a full-term pregnancy. Pregnancy Tests increased by 15% from May 2014.

Corrective Actions for Deviations: The targeted population includes female college students, and many students have gone home for the summer semester. With increased marketing and public relations efforts to secondary markets, such as in low-income communities where single female-head of households have more than 1 child, the Number of Pregnancy Tests will not drop drastically and will remain stable. Continue to develop strategies to increase the number of clients, who participate in Abstinence Sessions, and incorporate Abstinence Education in all phases of services.

Ongoing Obstacles: The Number of Pregnancy Tests' Performance Indicator Target should have been lower during the summer months.

Major Activities in Next Period: Public Relations activities in secondary targeted markets and reiterating strategies to engage more males and clients in Abstinence Education.

Hi Celia -

Thanks for the information. It was very helpful.

I would like to request the following information as well under the Freedom of Information Act.

1. In the RFP #3000005978 published on the DCFS website (<http://www.dss.state.la.us/index.cfm?md=pagebuilder&tmp=home&pid=248>), it reads the following under section 6.6 entitled "Announcement of Contractor":

The proposals received (except for that information appropriately designated as confidential in accordance with La. R.S. 44:1), selection memorandum along with list of criteria used along with the weight assigned each criteria, scores of each proposal considered along with overall scores of each proposal considered, and a narrative justifying selection shall be made available, upon request, to all interested parties after the "Notice of Intent to Award" letter has been issued.

Could I please be provided the materials associated with the underlined text above for this RFP? If I need to be clearer, please let me know.

2. As I understand it, each contractor for the Alternative to Abortion Initiative must supply at the conclusion of their contract period a report that summarizes the outcomes of their work during the period. I believe these reports must include a comparison of the numbers of services provided or clients served versus the projected figures that each contractor laid out in their proposal. I apologize for not having the proper name of the report.

For example, I believe this requirement is laid out in page 2 under section 5 entitled "Project Requirements" and then "Reporting Requirements" in the RFP referenced above.

I would like to request all of these relevant reports from any Alternative to Abortion Initiative contracts active from 2010 to the present.

Thanks so much,

Ben

Hi Ms. Walters,

I hope you are well! We spoke a couple weeks ago on the phone regarding the Abortion Alternatives program.

I am following up on a couple items.

- I have learned that the RFPs were awarded for the 2016-2017 Abortion Alternatives Program. Thank you to you and your staff for moving this forward, even in the midst of the flood and the medical condition of Mr. Vidacovich.
 - Could your staff provide me copies of the public documents associated with this RFP, including the award letters to the proposers, along with the relevant proposals submitted by the proposers that were awarded the contracts?
- Regarding the issue of the reimbursements requested by Mrs. Barbara Thomas of the Family Values Resource Institute, Inc. / Louisiana Alliance for Life, in our last conversation, you stated that a meeting was being scheduled for further review with Mrs. Thomas in order to clear up any apparent discrepancies and resolve this issue. From my discussions with Mrs. Thomas, it appears this meeting has not taken place. I was interested in the outcome of the meeting, and hoping to participate if the schedule allowed.
